**Frustrating Subscription Model**  
Unit is useless without the \$500 yearly subscription. Then if you want to use a 3rd party software, it will cost you another yearly fee. So to play gspro you are looking at \$750 a year or \$62.50 a month. Subscription fees are killing us.

**Great product. Wish incentives were there when I purchased.**  
I'm really happy with it just stinks that a little after I bought my unit you guys offered the free gold package and gspro which I had to purchase. Purchased at the very end of January.

✔ **Could have been sooooo much better. 1 star**

Too hard to set up. No support over the weekend. Too expensive without true benefit. Sent it back immediately. Went back to Skytrak.
